Full-Stack Web Developer | UI/UX Enthusiast

Career Objective

A passionate Full-Stack Web Developer with hands-on experience building dynamic, aesthetically pleasing, and highly functional web applications. I thrive at the intersection of design and engineering, delivering premium user experiences through sophisticated custom platforms and robust full-stack architectures. Currently pursuing a B. Tech in Computer Science, I actively explore modern frontend frameworks, seamless animations, and scalable backend systems — committed to clean code, thoughtful UI/UX design, and continuous learning.

Education

B. Tech in CSE, NMAMIT, Nitte
Excellent PU College, Moodubidire
Sharada Residential School, Udupi

CGPA: 6.93 | 2024-2028

91% | 2024

81.6% | 2021

Projects

- **Khaana – Premium Food Delivery & Restaurant Management Platform:** [Live Demo](#)
 - Built a full-stack food ordering platform connecting customers with elite restaurants through a premium, responsive UI designed with React.js, Vite, and Tailwind CSS.
 - Implemented secure Role-Based Access Control (RBAC) using JWT authentication and bcrypt password hashing, supporting Customer, Owner, and Admin roles.
 - Engineered OTP-based registration and account recovery, real-time cart management with dynamic pricing, and integrated Razorpay payment gateway for seamless checkout.
 - Developed an automated PDF invoice generation pipeline (PDFKit) and serverless email delivery via Nodemailer and a Vercel Serverless Function, bypassing SMTP hosting restrictions.
 - Built an Owner Dashboard for menu management and order status tracking (Preparing → Out for Delivery → Delivered), with automated customer email notifications at each stage.
 - Deployed across a multi-cloud architecture: Frontend on Vercel, backend REST API on Render, and PostgreSQL database on Supabase.
 - **Tech Stack:** React.js, Vite, Tailwind CSS, Node.js, Express.js, PostgreSQL (Supabase), JWT, Razorpay, PDFKit, Nodemailer, Vercel, Render

Technical Skills & Tools

Programming Languages: JavaScript, TypeScript, HTML5, CSS3, C, Python

Frontend: React.js, Vite, Tailwind CSS, Framer

Backend: Node.js, Express.js

Databases: PostgreSQL, MongoDB, MySQL

Dev Tools & OS: Git, GitHub, Canva, Mac, Linux, Windows, Vite,

Soft Skills: Problem-Solving, Self-Learning, UI/UX Design Thinking, Team Collaboration, Continuous Learning

Achievements & Competitions

- **Smart India Hackathon (SIH) Participant** – Submitted prototype solutions for two separate SIH problem statements (1612 & 25081), competing at the national level.
- Built and deployed a production-grade full-stack application (Khaana) with live users, integrated payments, and automated email infrastructure.
- Actively contributing to UI/UX component libraries and open-source frontend projects.
